

Guernsey Airport's largest development.

One of the most complex projects ever undertaken in Guernsey and for the most part, the airport will remain open.

How will they do it?

The Airport 2040 Lecture

Presented by Gerry Prickett

The Airport 2040 Lecture Presented by Gerry Prickett

Wednesday 25th January 2012
At The OGH

6:15 PM Pre Dinner drinks (optional)
6:30 PM Dinner (optional)
8:00 PM Lecture (free to attend)
9:00 PM (approx) Post-lecture discussions

Airport 2040 is a major programme of essential maintenance and improvements planned for Guernsey Airport; the largest development at the airfield in its 72- year history and one of the biggest, most complex capital projects ever undertaken in Guernsey. This project will equip the airport to serve the island for the next 30 years.

Construction work (expected to begin in early 2012) will take around 18 months to complete. This includes the reconstruction of the runway and other hard surfaces, the replacement or refurbishment of the drainage system, airfield lighting and other key operational systems, and the creation of longer safety areas at either end of the runway. To add to the complexity, the majority of this work will be undertaken while the airport remains operational as normal.

Gerry Prickett

Gerry Prickett, Director of Civil Engineering and Project Manager for TPS Consult, has been overseeing all aspects of the Airport 2040 contract on behalf on The States of Guernsey and leading the team of airfield specialists involved.

As a chartered engineer with more than 35 years of experience, Gerry Prickett brings with him a wealth of knowledge from similar airfield projects, including: project managing the £45 million runway upgrade in the Isle of Man; overseeing developments at Heathrow Terminal 5, Gatwick, Stansted, and Glasgow Prestwick; and managing airport construction projects in Ghana and Madrid. In his lecture, Gerry will draw on this extensive experience to outline some of the major aspects of aviation infrastructure projects.

Optional Dinner

Prior to the free lecture, you are invited to attend an optional dinner (£18.50 per person) with the following set menu:

Starter - Smoked Chicken Caesar Salad with crispy bacon & parmesan shavings
Main - Roast Chicken Breast with spinach & cheese, served with a cream cheese sauce
Desert - Fresh Guernsey Strawberries with Chantilly Cream
Coffee, Tea, Herb Tea and Chocolate Mints

Please reserve your place by detaching and returning this slip by 21st January 2012 or phoning Allan on 07781 418561.

I / we will be attending the pre-lecture dinner at The OGH on Wednesday 25th January 2012.

A cheque payable to CIGPE for £ _____ (£18-50 per person) is enclosed.
